

News From The Hills

VOLUME 1, ISSUE 4

JULY 2009

The Ins & Outs

At Nob Hill we pride ourselves on staying informed and educated in the ever changing world of hardware. It is our promise to our clients to offer the freshest designs along with an eclectic selection that will satisfy anybody's design desires.

In making room for new selections we need to say goodbye to some items. Right now Nob Hill is clearing most of our display mirrors.

These mirrors include several shapes and styles from Alno, Ginger, and more.

Please stop by or call for specific item numbers and pricing.

Don't miss out on this great opportunity!

Top Knobs

This month Top Knobs has brought us exciting news. They have developed a refreshing line of Bath Hardware to offer in addition to their popular Cabinet Hardware line. The six new series include: Tuscany, Edwardian, Stockton, Hudson, Aqua, and Hopewell. These series, ranging

from contemporary to traditional and everything in between, are likely to satisfy almost any bathroom hardware need. The Edwardian Series is unique in that it comes with six different back

plate options. The new line also boasts finishes not offered before, including Brushed Bronze, Tuscan Bronze, and German Bronze.

Along with the launch of their bath hardware, Top Knobs has

also introduced a few new collections of cabinet hardware. The Aspen Collection is a cast bronze collection that presents a variety of new pulls, knobs, back plates, and finishes. Both the brushed bronze and Tuscan Bronze Collections offer a new twist on

already established and popular designs by offering them in the newly introduced finishes. Last but certainly not least, is the Crystal Collection. Top Knobs has introduced crystal into their line in a big way by offering knobs in an assortment of different colors.

These new lines will be available

to order the middle of this month. We will also have them on display in our showroom around that time. To get a peek at all Top Knobs has to offer please visit www.topknobsusa.com

Stone Hill at the Farmers Market

This year Stone Hill has made it easier for you to check out some of our products while at the same time getting ideas for your yard. We have partnered up with Dynamic Design Landscaping at the Minneapolis Farmers Market to display select items that Stone Hill has to offer, including fountains, statues, benches, and more. This display is located at the far end of the

market grounds near the Annex Building.

Please stop by and get ideas on how you too can utilize stone

and water features to transform your yard into an additional outdoor living space.

The Farmers Market:

312 East Lyndale Ave North in Minneapolis.

They are open Sunday-Saturday from 6 a.m. to 1 p.m. through November.

For additional information please contact Harry Catlett at Stone Hill 763-225-8794.
