

Stone Hill

Add a bold touch of elegance to your fireplace with this stunning fireplace surround and over mantel. This specific

Marseille Fireplace Surround & Over Mantel

design is called the **Marseille**. You can order it as it is shown or you can customize your own one of a kind surround. There are twelve different types of natural stone to chose from including Crema Marfil and Travertine. Stop by our showroom and see how we can help create a unique fireplace surround like no other.

New Collections from Rocky Mountain

We are really excited about the three new collections being introduced by Rocky Mountain! First, the

The Roger Thomas Paris Collection

Paris Collection is a dramatic new collaboration with renowned hospitality interior designer Roger Thomas. It includes cabinet hardware and door locksets reminiscent of historical styles from 17th & 18th century France with a sense of whimsy, romance and decorative flair.

The Ted Boerner Collection introduces five new hardware collections in itself by respected furniture de-

signer Ted Boerner. Known for its sophistication, comfort and organic sensibility, the collections include door hardware and cabinet pulls which offer a range of sculptural looks, including chunky handles and asymmetrical knobs and pulls. Each embraces Boerner's signature balance of intimacy and emotion. Thirdly, the Briggs Collection is a

The Ted Boerner Collection

complete line of hardware and accessories which beautifully combine artisan hand-carved designs with extensive sand-casting expertise. Each piece, made of recycled art-grade bronze, takes its design inspiration from a rich array of stylistic

influences from Moroccan grates to the door knobs of a cathedral built in the 1800's. The versatility of this collection is adaptable to today's

The Briggs Collection

eclectic styles, with each finish bringing a new mood to the design. Whether they are creating new designs or classics, Rocky Mountain Hardware takes pride in creating hardware that is not only beautiful, but stands the test of time. They use only the finest recycled bronze to cast each piece, and their entire product line is third party certified to contain a minimum of 90% recycled content.

New Safe

We are excited to offer a new safe at Nob Hill. It is the EST Series Electronic Safe with the new DL5000 Lock. These safes offer a one hour fire rating at 350 degrees Fahrenheit and a 5/8" thick door, as well as a handle operated side, top and bottom locking mechanism which incorporates 4 1" chrome plated locking bolts. There are also two deadbolts to prevent door removal if the hinges are removed during a forced entry attempt. Select models feature a new state

of the art DL500 electronic lock

EST1814

with a touch screen LCD input display. This new system allows smooth and easy operation, and will accept two user codes. It will also show open door records for the past 14 entries. It is equipped with one internal anchor hole and hardware, four removable rolling casters, one adjustable shelf, and one top mounted key lock drawer. Stop by and see the new addition to our safe collection. Our trained professionals would love to help!
